

RIDGEWOOD CHAMBER OF COMMERCE SPOTLIGHT...

Serving the community with
empathy and excellence for
over 60 years

West Bergen Mental Health, founded in 1963 as a non-profit child Guidance Clinic, has grown into a comprehensive mental health center serving the residents of Bergen County and beyond. Our team of over 275 dedicated staff is committed to providing quality, accessible, and affordable mental health treatment for children, adolescents, adults, and families who struggle with trauma, depression, anxiety, and other issues.

West Bergen contracts with 19 school districts in the area (including Ridgewood), and has a dedicated therapist in each of these schools to provide intensive onsite support for elementary through high school. This critical support assists the most vulnerable students, enhancing the schools' ability to meet all students' social and emotional needs. West Bergen's mission of hope and healing through the support of our communities.
