

RIDGEWOOD CHAMBER OF COMMERCE SPOTLIGHT...

WE MAKE MUSICIANS!

School of Rock WALDWICK is your local destination for learning guitar, bass, drums, piano, and singing. We are a growing passionate community dedicated to enriching lives through performance based music education. We have been rockin' Bergen county since 2010.

The patented School of Rock Waldwick curriculum uses popular songs in a framework that empowers students to practice effectively at home. Coupled with our School of Rock App students can practice while getting real time feedback on their progress. This positive support keeps kids engaged and learning correctly. Their one-on-one lessons are even more fun because students show real progress each week. But the true magic of SoR comes alive in our weekly band rehearsals. Students use all the knowledge and skills learned in their one-on-one lessons and immediately puts it to use in our fun, supportive group rehearsals.

Our students learn so much more than music. They learn to work together & that they matter to the group. Our students develop true self confidence as well as mastery of their chosen instrument or singing. Our students get to perform in amazing venues such as Debonair Music Hall, Morey's Piers, Webster Hall, Brooklyn Bowl, Mason Jar, Shannon Rose, and even Disney World as well as Downtown Ridgewood for many special festivals.

School of Rock Waldwick helps students rock on stage and in life! We offer lessons on Guitar, Bass, Drums, Piano & Singing for students starting at age 8 years old and up. (We have a thriving adult program too.)
